Why should I apply for Uncharted Scanlations?

Translator: You get to practice a new language and it gives an advantage for job interviews in a competitive globalized world!

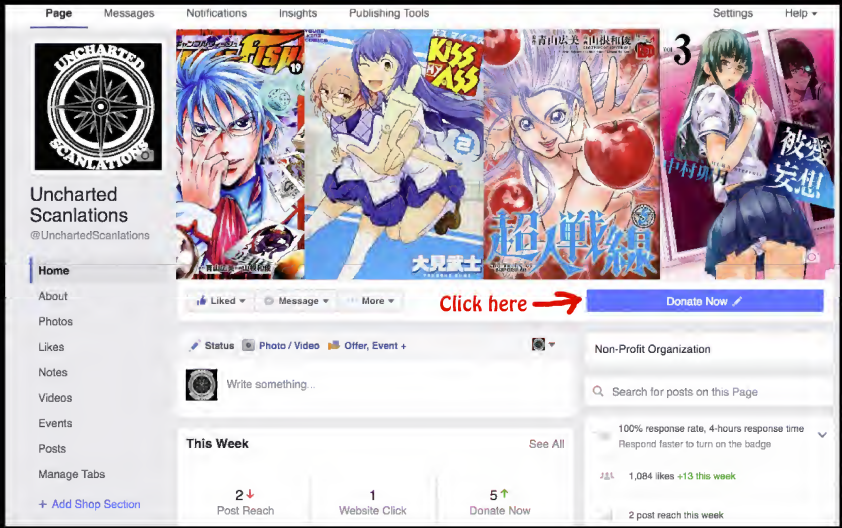
Cleaner: You prevent eye migraines to readers everywhere!

Typesetter: You can improve the graphic's design in fonts!

Quality Check: You save the group from embarassing errors thanks to your attention to details!

Raw Provider: You can provide the group new materials to work on and finish off the dropped series once and for all!

ATTENTION TO ALL READERS



Since Patreon hasn't been working out well for me, I decide that it's time that I switch to Paypal donations to support the scanlation series. It's great to have free content to read online, but unfortunately, most of what I do cost money. Sometimes, not even my job can cover the expenses in finding new chapters to scan and edit.

Translator/Cleaner/Typesetter: GundamY
Raw Provider/Redrawer: DVA
(From Yaboku Ravens)

We Need More Redrawers and Scanlators!!!

Phew! I've been running around with my new job, and my class is about to begin in a few days! Not to mention I have taken 2 private commissions in translating two obscure series (won't reveal the names anytime soon).

Oh, and I have been talking to the creators of MangaRock and decided to give those guys a try. Be sure to check their site through their mobile app or their website. Stay supportive, guys! Because more chapters are coming!
